Attachment A
Statement of CPNI Procedures and Compliance

ipTimize, Inc.

Calendar Year 2008

IPtimize, Inc.

STATEMENT OF CPNI PROCEDURES AND COMPLIANCE

IPtimize, Inc. ("IPtimize" or "Company") provides Voice over Internet Protocol (VoIP) services to business customers. The Company does not use or permit access to CPNI to market any services outside of the total service approach as specified in 47 CFR §64.2005. If IPtimize elects to use CPNI in a manner that does require customer approval, it will follow the applicable rules set forth in 47 CFR Subpart U, including the institution of operational procedures to ensure that notification is provided and customer approval is obtained before CPNI is used or disclosed.

IPtimize bills its customers directly and has taken steps to secure CPNI and call detail records, and manage the release of such information in accordance with FCC rules. The company has put into place processes to safeguard CPNI and call detail information from improper use or disclosure by employees; and to discover and protect against attempts by third parties to gain unauthorized access to CPNI.

Service may be sold direct to customers or through agents. Agents may place service orders on the telephone or via the internet. Agents do not have access to CPNI, customer bills or call detail records.

Telephone Contact Safeguards: Call detail information is provided over the telephone to customers only when the customer has a copy of the bill, containing call detail, when on the call with IPtimize. If the customer does not have the bill, a copy of the bill is resent to the contact and address of record.

On-line Safeguards: IPtimize provides customers with on-line access to their account information. Customers are given a random computer-generated password which does not correspond to any personal biographical or account identifiers. Customers may choose to change the password on their own. This first level of access allows customers to see their current services purchased from IPtimize. An additional level of password access is required to view billing data and detail. This second level of access initially is through customer account information. Customers may change and set their own password after the initial access.

Information contained in this document is proprietary and not to be disclosed without written permission from
IPtimize, Inc.

1720 S. Bellaire St, Ste. 200; Denver, CO 80222
303-268-3600 (Main) 303-268-3639 (Fax)

The Company maintains a record of all instances where CPNI was disclosed or provided to third parties, or where third parties were allowed access to CPNI.

The Company does not have retail locations and therefore does not disclose CPNI in-store.

IPtimize, Inc.

STATEMENT OF CPNI PROCEDURES AND COMPLIANCE
(Page 2)

Company notifies customers via a previously established email address or mails to the customer address of record, all notifications regarding account changes (without revealing the changed information or sending the notification to the new account information) , password changes, change in a response to a back-up means of authentication, change to an on-line account, change or creation of an address of record other than at service initiation.

The Company does have procedures in place to notify law enforcement (United States Secret Service and FBI) of a breach of a customer's CPNI within seven (7) business days, and to notify customers of the breach. The company maintains a record of any breaches discovered and notifications made to the USSS and FBI. The customer's electronic record is updated with information regarding notifications on CPNI breaches.

The Company has not taken any actions against data brokers in the last year.

The Company has not received any complaints about unauthorized release or disclosure of CPNI for the last calendar year.

The Company has not developed any information with respect to the processes that pretexters are using to attempt to access CPNI.
